

MOULDING/BASE/FLOOR SCREW SMALL HEAD FOR WOODEN AND STEEL JOISTS,  
YELLOW CHROMATE

AREA OF USE

ESSVEMoulding/base and floor screw designed for the installation of mouldings base boards and solid pine floors indoors, against wood or steel joists. Drill capacity 0.4 – 0.9 mm. For installation of harder wooden floors e.g. oak pre-drilling is necessary.

DESCRIPTION

The screw is produced in hardened carbon steel with yellow chromate surface treatment andin yellow chromate or white finish. The screw has a counter-thread under the head to press mouldings base boards and solid pine flooring against the substrate.The screw is fitted with a fibre cut in the point to reduce cracking and reduce the drive-in torque. The small head gives a good countersink and the screw is fitted with TX-drive/bits.

INSTALLATION INSTRUCTIONS

Recommended rpm: 400-1200/min.

Steel

Wood

Specification	
Surface treatment	Yellow zink plated
Main Materials	Steel
Corrosion resistance class	C1
Application environment	Indoors
