

UNIVERSAL SCREW MULTIDRIVE, EZP

AREA OF USE

ESSVE Universal Screw Multidrive is intended for fastening various fixtures in wood, concrete, lightweight concrete, masonry material, chipboard and drywall. No pre-drilling is needed in wood, chipboard, drywall or lightweight concrete.

DESCRIPTION

The screw is made of hardened steel with a bright zinc-plated finish. It is equipped with TX20 bits. The screw has a fiber cut, which results in very low driving torque in wood materials and minimizes splinting.

INSTALLATION INSTRUCTIONS

Recommended rpm: 400-1200/min

Concrete

Plaster board

Lightweight concrete

Wood

Specification	
Surface treatment	Zinc plated
Main Materials	Steel
Corrosion resistance class	C1
Application environment	Indoors

Small Pack
